

July 13, 2009

Honorable Mayor Jim Haggerton  
Tukwila City Council  
City of Tukwila  
6200 Southcenter Blvd  
Tukwila, WA 98188

**Re: Draft Tukwila Shoreline Master Program – July 13, 2009 Public Hearing**

Honorable Mayor Haggerton & Honorable Members of the City Council,

On behalf of the Boeing Company, we would like to comment this evening about the Draft Tukwila Shoreline Masterplan.

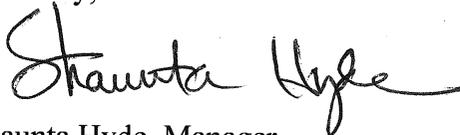

During the Planning commissions review of the SMP update we provided written testimony back in 2008. We have also met with city staff directly regarding the plan and they have reached out to us many times since, and we have attended the public open houses. This has been a comprehensive process and we acknowledge the effort and work this entailed for all parties.

We have reviewed the environmental designations, land use regulations, and development standards and have no current concerns with the language or understanding of how these standards are to be implemented. We found the plan to be a very well thought out and all encompassing document which provides a bit of flexibility. We like and appreciate the Shoreline Goals and Policies Section as it gives clarification to support individual corporations work as it pertains to shorelines restoration. Creating land use policies that encourage habitat improvements and sound environmental stewardship creates a strategic approach along the river and turning basin.

We believe the City of Tukwila has been working hard for over a year now to find the right balance among many various constituencies. Again, we appreciate the hard work and effort of the Community Development Department staff and Council has done to make the SMP a useful document.

Thank you for your time and consideration this evening.

Sincerely,

Shaunta Hyde, Manager  
Government Relations  
The Boeing Company
