Re: Draft Tukwila Shoreline Master Program

Dear Honorable Commission Members,

On behalf of the Boeing Company, we would like to respond in writing to the Draft Tukwila Shoreline Masterplan prepared by the Tukwila Department of Community Development on July 24, 2008.

We found the plan to be a very well thought out and comprehensive document. We appreciated the Shoreline Goals and Policies sections as it gives clarification and flexibility to support individual corporations work as it pertains to shorelines restoration. We have reviewed the environmental designations, land use regulations, and development standards and have no current concerns with the language or understanding of how these standards are to be implemented.

We believe the City of Tukwila is heading in the right direction with this document and appreciate the hard work and effort of staff to make the masterplan a useful document. We also want to commend the City for working with waterfront landholders to encourage habitat improvements and integrating sound environmental stewardship and land use policies.

We look forward to continuing in the process of the City's Masterplan and thank you for allowing us the opportunity to comment.

Sincerely,

Shaunta Hyde
