

PUBLIC WORKS BULLETIN A3 PAVEMENT MITIGATION AND TRANSPORTATION IMPACT FEES

CITY OF TUKWILA
Public Works Department
206-433-0179

This Bulletin summarizes pavement mitigation fees and transportation impact fees applicable to private development projects within the city.

PAVEMENT MITIGATION FEE

The City does not allow pavement cuts in pavement that is three years old or newer (*TMC 11.04 Recently Improved Street*), except by written approval from the Public Works Director.

Public Works charges a pavement mitigation fee whenever pavement in the right-of-way is disturbed. The pavement mitigation fee compensates the City for reduced life span due to disturbance of roadway surfaces. The fee is based on the total square footage of impacted pavement and on the remaining life of the existing pavement. The mitigation fee, based on cut limits shown on the permit plan set, is paid when the permit is issued. To estimate the cut area, add two feet to all sides of the expected cut limits before calculating the area. This fee may be adjusted, based on the Inspector's measurement of the actual cut limits. Use the following table to estimate the pavement mitigation fee.

Approx. Remaining Years	Pavement Mitigation Fee
0-1	\$0.00
1-2 (10%)	\$1.00
2-5 (25%)	\$2.50
5-7 (33%)	\$3.30
7-10 (50%)	\$5.00
10-15 (75%)	\$7.50
15-20 (100%)	\$10.00

TRANSPORTATION IMPACT FEE

Consistent with the Comprehensive Plan, the Six-year Transportation Plan and the Capital Improvement Plan, the transportation impact fee helps ensure that new development bears its proportionate fair share of transportation facilities necessitated by the new development. The fee applies to any construction, reconstruction, conversion, structural alteration, relocation or enlargement of any structure that requires a building permit and **generates any new PM peak hour trips**. The transportation impact fee is charged to each development according to an impact fee schedule based on defined zones. The fees are assessed as part of the building permit and are due and payable when the permit is issued. (TMC 9.48 and Ordinance 2111)

This Bulletin should not be used as a substitute for codes and regulations. Your project will be reviewed for specific compliance to codes and regulations.
